- 5G/4G, WiFi/BT/GPS/camera
- NFC, RFID reader options
- USB Type-C, expansion port

Durable, high-performance and practical Solutions

In modern logistics and industrial manufacturing, efficiency, reliability, and real-time data are crucial for success. This is precisely where Nordalp's rugged handhelds and tablets come into play. They were specifically developed for demanding work environments and offer not only exceptionally robust construction but also powerful technologies that can be seamlessly integrated into existing processes. Whether in warehousing, goods transport, or production – Nordalp devices impress with their high reliability, long battery life, and flexible connectivity.

Our passion is to solve your problems and provide the tools so your job can be done in any work environment.

Nordalp Software Suite

Designed to make Nordalp's growing lineup of ultra-rugged Android devices even easier to use, Nordalp apps get you up and running fast, letting you apply customized mobile device staging and security configurations quickly, even across large-scale deployments. The growing suite of Nordalp software apps for Android is designed to facilitate quick custom setups for a curated, secure experience across all your Nordalp Android devices.

Boost your rugged Solution with our smart Accessories.

Get the tools for improved efficiency

With a full ecosystem of smart accessories and optional add-ons, you can configure our rugged devices for your specific work needs. Add vehicle docks with antenna pass through, field-swappable batteries, multi-bay chargers and much more to get your job done easier, faster and more efficiently.

Field-swappable batteries

Batterie chargers

Various handstraps

Vehicle docks

About Nordalp

Nordalp is a manufacturer of rugged mobile computers, including handhelds, tablets, and custom devices. The Nordalp team worked for over 13 years with a rugged mobile computer manufacturer before founding the company. Through many years of experience and close collaboration in hardware and software development, they have gained extensive experience. Nordalp and its partners deliver complete mobile solutions for companies in industries such as geomatics, logistics, forestry, public transportation, utilities, construction, maintenance, and mining.
